

Dry Glazing U Channel - 25x25x19 - Brushed Satin Anodised (Model: G7034A)

- These U Channels provide the most economical way to glaze heavy glass.
 - Using the Deep U Channel on the top and Shallow U Channel on the bottom allows for the 'shuffle glaze' method of glazing.
 - The glass can be secured with silicone sealant or our Top Load Roll-In Glazing Gasket.
 - Roll in wedge gaskets for 10 or 12mm glass are sold separately.
- GASKET IS SOLD PER METRE 6M WILL BE REQUIRED****
