

Self Locking Glass & Window Dolly - 400kg Capacity - 0-100mm (Model: B0089A)

- This self-locking transport dolly is a simple solution to moving glass, drywall, doors, sheet metal and stone panels on site. A compact and easy-to-use device, its robust tyres can safely move sheets weighing up to 400kg across uneven ground.

- The popular dolly has an inner lining for extra protection when transporting glass, doors, and drywall panel between 0mm to 110mm thick. The Self Locking Transport Dolly includes a convenient carry handle and large non puncture wheels which makes it ideal for construction sites.

- Key features:
 - Capacity: 400kg
 - 110mm maximum sheet thickness.
 - Puncture proof 260mm tyres.
 - 400mm Long.
 - 7.7kg Weight.
 - Generous payload capacity compared to other transport dollies on the market.
