

Static Vent-A-Matic PB (Model: M0018)

The Vent-A-Matic is a durable and effective in-glass ventilator that can solve most ventilation requirements. The PB Static vent is a low cost double louvered model, security proof and designed for use where continuous ventilation is mandatory. Marked with free air space to conform with gas board recommendations.

- Requiring a 164mm diameter hole.
- For use in single glazing up to 6mm thick.
- Will fit sliding sash windows.
- Ideal for any room fitted with a gas or solid fuel appliance.
- Secured by a central brass bolt from the inside, which cannot be removed from the outside.
