

DCR/DRS Roller Starter Kit (Model: W.EVA.AC.001)

- The Dust Removal System (DRS) Starter Kit is designed and manufactured to ensure optimum cleaning of flat glass. The cleaning roller is simply rolled over the glass, picking up any unwanted debris. To clean the roller for additional use it is simply rolled over a sticky cleaning sheet on a pad.
- Includes a 305mm wide cleaning roller, one large cleaning pad and one roller holder
- Reduces the risk of contamination of glass before further processing
- It can be used for the production of glass that is to be laminated, painted or prior to having film applied
